

HubSpot for Manufacturing

Why HubSpot?

HubSpot's AI-powered customer platform provides an **easy, fast, and unified** way to track inventory, monitor production, and delight customers.

Traditional CRM

Hard to Use

Reliance on specialized labor due to hard to use tools.

Slow Results

Inefficiency that slows time to value.

Disjointed Data

Complex operations that introduce risk.

Customer platform

Easy to use

Easy to use tools that empower teams.

Fast results

Fast results powered by AI that reduce time to value.

Unified data

Unified customer platform that simplifies operations.

Track Inventory

Easily manage inventory to deliver orders with accuracy and speed.

Monitor Production

Provide a complete view of customer orders to effectively communicate updates.

Delight Customers

Turn customers into evangelists to grow faster winning customer service.

“Traditionally, our efforts were scattered across multiple tools and platforms. This meant there was no “single source of truth” for our lists or analytics. Now that we’ve consolidated everything in HubSpot, our work is better organized, and my team can do more than ever before as they learn more about the tool.”
